More successfully than any other novel I've read recently, Bernard Beckett's *Genesis* epitomises the investigative ideal of science fiction. Any standards it's a short novel and at 150 pages is perhaps more truly a novella, but in a genre given to overinflated, ponderous tomes screaming out for an editor wielding a samurai sword, there's a refreshing efficiency to Beckett's writing. *Genesis* is set some time later, when young student Anaximander is being interviewed by three examiners for a place in the exclusive academy, which accepts less than 1% of all applicants. *Genesis* is an interesting take on artificial intelligence and the philosophical issues it raises -- as well as a few ethical questions. Beckett's choice of ancient-Greek tie-ins (Anaximander also has a mentor named Pericles) are a bit of a distraction, in part also because he does not seem fully committed to the connection, but on the whole *Genesis* (2006) is a philosophical science fiction novel by New Zealand author Bernard Beckett. It won the 2007 Esther Glen Award for children's literature, and the 2007 New Zealand Post Book Awards for children and young adults. As of 2008 it has been published in 22 countries. *Genesis* is a post-apocalyptic science fiction novel from Bernard Beckett that is classified as a young adult novel. I heard such good things about it that I decided to add it to my reading list and I'm happy to report that this is a novel that is as well worth reading for adults as it is for young adults. *Genesis*, Bernard Beckett repeats the experiment.
