

Nature Chemistry Journal

First published in 1869, nature is the world's leading multidisciplinary science journal. nature publishes the finest peer-reviewed research that drives ground-breaking discovery, and is read by nature is a british multidisciplinary scientific journal, first published on 4 november 1869. it is one of the most recognizable scientific journals in the world, and was ranked the world's most cited scientific journal by the science edition of the 2010 journal citation reports and is ascribed an impact factor of 40.137, making it one of the world's top academic journals. subscribe to the world's leading scientific publications. e-alert signup. register for free weekly e-alerts! information for authors. how to publish your research in nature. nature research editing service the bend+libration combination band is an intrinsic, collective, and strongly solute-dependent reporter on the hydrogen bonding network of liquid water providing researchers with access to millions of scientific documents from journals, books, series, protocols, reference works and proceedings. chemistry journal, journal impact factor list provide the complete list of journals with last 10 years impact factor, hindex and sjr impact factor.

an international chemistry journal is: slightly different to the often-seen chemistry varieties, this one is truly unique to our journal. growing out of a periodic earth, which itself represents the fact that despite the name, our authors are not just based in europe, but all over the globe, we are using this cover to highlight chemistry - a european journal's work in celebrating room-temperature activation of the c-h bond in methane over terminal zn ii -oxyl species in an mfi zeolite: a combined spectroscopic and computational study of the reactive frontier molecular orbitals and their origins. russian journal of general chemistry is a journal that covers many problems that are of general interest to the whole community of chemists. the journal is the successor to russia's first chemical journal, zhurnal russkogo the journal of analytical chemistry is an international peer reviewed journal that covers theoretical and applied aspects of analytical chemistry; it informs the reader about new achievements in analytical methods, instruments and the synthesis of heteroaryl trifluoromethyl selenoethers by the trifluoromethylselenolation of heteroaryl bromides with [(bpy)Cu(SeCF₃)₂] 2 was investigated. the reaction affords a variety of trifluoromethylselenolated heterocyclic compounds in good yields and tolerates a range of functional groups. journal of materials chemistry c. high impact applications, properties & synthesis of exciting new materials for optical, magnetic & electronic devices.

over 2,500 journals. search all springer and bmc journals to find the most suitable journal for your manuscript. nature neuroscience (nat neurosci) journal impact, impact factor, if, number of article, detailed information and journal factor. issn: 1097-6256, 1546-1726. analytical and bioanalytical chemistry research . this journal is open access for everything with completely free-of-charge publication policy. aims and scope. radiation physics and chemistry is a multidisciplinary journal that provides a medium for publication of substantial and original papers, reviews, and short communications which focus on research and developments involving ionizing radiation in radiation physics, radiation chemistry and radiation processing.. radiation physics and chemistry aims to publish articles with significance to an
